## SIECUS Guidelines for Comprehensive Sexuality Education

**"Boys and girls have body parts that feel good when touched." (Ages 5 to 8.)**
**"Vaginal intercourse occurs when a man and a woman place the penis inside the vagina." (Ages 5 to 8.)**
**"Touching and rubbing one's own genitals to feel good is called masturbation." (Ages 5 to 8.)**

**"Homosexual love relationships can be as satisfying as heterosexual relationships." (Ages 9 to 12.)**

**"A few boys engage in a very dangerous and sometimes fatal form of masturbation that involves limiting their air supply." (Ages 12 to 15.)**

## CDC-promoted comprehensive sex education curricula

**Grape jelly, maple syrup and honey could be used as a lubricant on condoms. (B.A.R.T. – ages 14 to 18.)**

**There are many ways to be close. The list may include…body massage, bathing together, masturbation, sensuous feeding, fantasizing, watching erotic movies, reading erotic books and magazines. (Focus on Kids – ages 9 to 15.)**
